Kseniia Mukhutdinova

UX/UI & Product Designer

Passau, Germany · kseniia.mukh@gmail.com · LinkedIn · Portfolio · Behance

German C1 • English B2 • Russian native • Full working rights in Germany • Open to relocation

PROFESSIONAL SUMMARY

UX/UI & Product Designer with hands-on experience designing digital products for EdTech and job-platform startups in Germany. Sole designer on an AI-powered learning app, owning the full experience from onboarding to paywalls, with multiple screens implemented by the development team. Built a company's first design system and validated redesigns through interactive prototype testing. Front-end background (HTML, CSS, JavaScript) for smooth designer–developer collaboration. C1 German, based in Passau with full working rights in Germany.

CORE COMPETENCIES

Design: UX/UI design, product design, mobile app & responsive web design, design systems, wireframing, user flows, information architecture, interaction design, prototyping, usability & hypothesis testing

Tools: Figma, Framer, Rive, Jitter, Notion, Slack, AI tools (ChatGPT, Claude)

Technical: HTML, CSS, JavaScript

EXPERIENCE

Product Designer — Multiple Recall

Passau, Germany Sep 2025 – Oct 2026

Early-stage AI EdTech startup building an exam-prep app that turns students' university course materials into interactive courses (B2C, pre-launch).

- Ran regular design reviews of existing screens and flows, iterating and redesigning in alignment with the design lead to steadily improve the app's usability and consistency.
- Built the product’s design system and a consistent visual language from scratch.
- Designed the company website and built a working prototype in Framer to test the design and interactions before development.
- Mapped the entire app and its core flows to surface gaps in the user journey and prioritise what to rework.
- Created an animated brand mascot in Rive (lip-sync visemes and a state machine) to add personality and guidance across the app.
- Delivered supporting brand assets, including App Store screens and marketing emails.

UX/UI Designer — Oabat

Passau, Germany Apr 2025 – Sep 2025

Job platform for apprenticeships and internships (Ausbildung, Praktikum) for students and school leavers, originally covering 8 cities around Passau in Bavaria.

- Redesigned the platform's search and filter to work at national scale.
- Created the company's first design system — 60+ components across two platforms (web and iOS).
- Redesigned the job card to make paid-listing value clearer to companies while keeping the media-first identity.
- Created print and marketing materials (poster, flyer).

Freelance UX/UI Designer

Remote Aug 2023 – Apr 2025

Independent design work for education and job-platform clients.

- Designed a website for a language school and UX/UI for teacher profiles on job platforms.

Front-End Instructor (HTML, CSS, JavaScript) — Algorithmics

Online · part-time Dec 2021 – Aug 2023

International EdTech school teaching programming to children and teenagers.

- Taught front-end development (HTML, CSS, JavaScript) online to ~40 students aged 12–16.
